Statement of CPNI Procedures and Compliance

Statement of CPNI Procedures and Compliance

Network Communications International Corp. operates solely as an operator service provider and as such provides only operator assisted call completion services to transient users. Therefore, all of our services consist of casual traffic provided outside of any subscribed service relationship, and we do not obtain any CPNI. The only information we have is the raw call record containing the call-from number, the call-to number, the bill-to number, and the duration of the call. We do not have any information about the individual calling or called party. Calls are billed by the local exchange carrier or via credit card.

Since we do not have any CPNI, we therefore cannot use or permit access to CPNI. Moreover, we do not market our services to end users in any fashion. Our marketing efforts are directed only towards aggregators (hotels, motels, payphone owners)

Should we expand our business in the future to include the provision of services that involve CPNI, we will follow the applicable rules set forth in 47 CFR Subpart U, including, if necessary, the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

Requests for raw call records by law enforcement agencies are only granted if a subpoena is provided.
